Jaunumi

At first stage of project there should be 2 project squares:
1. Prieku residences Raw houses
2. Prieku Residences apartments

During project - should be 4 squares at landing page with 4 projects. The viewer should see project name, location, picture before going in the project page.

social media integration - only posts regarding living projects

news section - transfer of exiting news from priezurezidences.lv and dizozoli.lv

PICHE

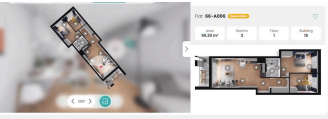

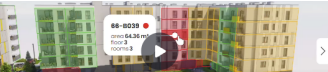

priežu rezidences apartments I project page

design example

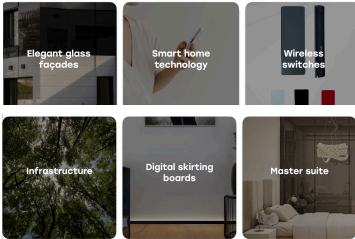

text

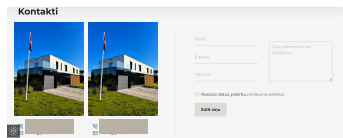

In the first stage of the project maybe just a visualization of house with possibility to search floor plans and enter floor plans and apartment visualizations

Advantages you won't find elsewhere

Choose a Bank

PICHE

logo at the top left side
on the bottom right side button text "apply now"

interactive map, that we can rotate and also when going onto the building we press on it and we are accessing floor plans, there is a sort that sorts through the floors, and we can select apartment and its plans, 3d tour for demo apartment later in project

- In this view also should be intergate:
- 1.aprtment status (sold, reserved, available)
 - 2.price
 - 3.apply
 - 4.option for sales persons to change statuses of apartments and crm options to see leds

on one side there's project pictures/visualisations including buttons to press to move through pictures by pressing back or forward , on other side - seo optimised text about the project

New residential project in Mārupe – apartments for sale near Riga

Priežu Residenču Apartamenti is a new, modern apartment development located on Mežciema Street in Mārupe. The landscaped area is set within a pine forest, featuring a basketball court and children's playground equipment for active recreation. Nearby, there is a lake and nature trails, while Riga city center is just a 15-minute drive away.

The project offers apartments for sale near Riga – including studio, one-bedroom, two-bedroom, and three-bedroom apartments, as well as penthouse units with four-bedrooms. The apartments are equipped with underfloor heating, smart access via fingerprint recognition, and high energy-efficiency triple-glazed windows with 7-chamber frames and low-emissivity coating, ensuring that apartments stay cool in summer and retain heat during winter.

Advantages you won't find elsewhere

1. Elegant glass facades built to last
2. Smart home technology controlled via phone
3. Wireless switches uniquely designed in-house
4. Smart access via fingerprint recognition
5. Digital skirting boards with led light
6. Apartments built in forest

Using the same exact as Priežu residences homes

About us

Founded in 2003, PICHE Group has accumulated a wide range of experience in real estate development and management. Our strong focus on innovation within a real estate building company, and the construction of residential homes and the first ever village in Latvia (Dzīvotāji), gives the development company a competitive edge in the market for high-quality homes. Today, as people are more aware of real estate development, we also develop new technologies aimed at increasing the quality of our services, such as the use of 3D visualization, energy audits, accommodation services, management funds and much more.

PICHE

Text:
About us
Real estate developer in Latvia – modern apartments, flats and homes

PICHE is a leading real estate developer in Latvia with more than 20 years of experience, offering high-quality apartments, flats, and homes for modern living. The company specializes not only in residential development, but also in the design, construction, and management of business parks, industrial buildings, warehouses, logistics and production facilities, office spaces, apartment buildings, and row houses.

PICHE's portfolio includes more than 200 designed and developed buildings with a total area exceeding 6 million m². The company's team consists of more than 300 professionals – architects, designers, engineers, IT specialists, project managers, and construction experts – ensuring full-cycle real estate development in Latvia.
